SUMMARY

Computer Science undergraduate currently pursuing B.E. CSE (CGPA 8.4/10, expected 05/2028) with hands-on full-stack web development experience across JavaScript, React.js, REST APIs, authentication, databases, testing, and deployment. Built live production software and student-facing platforms used by real users. Strong fit for Avijo's MERN Full Stack Intern role, with interest in building secure, scalable healthcare modules that improve accessibility and product quality.

EDUCATION

Dr. Mahalingam College of Engineering and Technology, Pollachi	08/2024 - 05/2028
B.E. Computer Science and Engineering CGPA: 8.4/10.0 Currently pursuing Bachelor's degree	
- Relevant Coursework: Data Structures and Algorithms, Object-Oriented Programming, Operating Systems, Computer Networks, Database Management Systems - Programming practice: Solved 100+ LeetCode problems across arrays, strings, trees, graphs, and dynamic programming	
Akshaya Academy CBSE School - TAAC, Palani	Graduated 05/2024
- HSC (Class XII): 83% SSLC (Class X): 91%	

TECHNICAL SKILLS

MERN/Web:	JavaScript, React.js, Node.js fundamentals, Express.js fundamentals, MongoDB, REST APIs, HTML, CSS
Backend/APIs:	Spring Boot, FastAPI, JWT Authentication, RBAC, API Integration, Real-Time Data Flow, Debugging
Databases:	MongoDB, MySQL, PostgreSQL, SQLite, SQL, Data Modeling
DevOps/Tools:	Docker, Jenkins, Nginx, Linux, Git, Deployment, Build Logs
Quality:	Testing, Code Review, Security, Performance Optimization, Reliability, Monitoring
Languages:	JavaScript, Java, Python, C, C++, SQL

PROJECTS

SACL PMS - Production Quality Control System	08/2024 - 01/2025
<i>React.js, JavaScript, Java, Spring Boot, MySQL, Docker, JWT, RBAC</i>	
- Designed, developed, tested, and deployed a live production web application for Sakthi Auto Components Ltd., replacing paper QC registers across 4 inspection workflows. - Built secure role-based workflows with OPERATOR, QC_APPROVER, and ADMIN access, JWT authentication, approval state machine, audit trails, and reliable data capture. - Collaborated from real user requirements to debug existing workflows, improve usability, and support production-quality operations on automotive OEM servers.	
Quad - Self-Hosted Campus Developer Platform	01/2025 - Present
<i>Python, FastAPI, Docker, SQLite, Nginx, JavaScript, Ollama</i>	
- Architected a scalable platform handling 150+ concurrent projects on 16GB RAM with stack detection, generated Dockerfiles, container scheduling, and scale-to-zero behavior. - Implemented REST-style service workflows, reverse-tunnel networking, HTTPS routing, environment secrets, rollback, build log capture, rate limiting, and security hardening. - Integrated local LLM features for codebase Q and A, submission analysis, and code health scoring while maintaining reliability, performance, and low infrastructure cost.	
SRC Website and Internal Tools	01/2025 - Present
<i>JavaScript, Web Development, Server Operations, Git</i>	
- Sole developer of src.drmcet.ac.in and related internal tooling for a 500+ member technical community. - Coordinate with students and faculty to prioritize features, maintain web content, manage lab servers, and ship useful product modules quickly.	

EXPERIENCE

Executive Member - Technical Staff Student Research Club (SRC), Dr. MCET	01/2025 - Present
- Build and maintain the live website, internal tools, and lab server operations while collaborating with technical teammates and faculty stakeholders. - Participate in team discussions, product decisions, debugging, and delivery planning for student-facing technical systems.	
Vice President and Technical Lead Ignite Association, Dr. MCET	08/2024 - 01/2025
- Led technical execution for a 1,200+ member association, coordinating registrations, event infrastructure, and cross-department requirements. - Improved scalable event workflows and contributed to 40%+ participation growth through reliable digital systems.	

ADDITIONAL STRENGTHS

Fast learner, founder-facing execution, healthcare mission alignment, collaboration, code reviews, accountability, flexible remote work, and product-quality mindset.
